Bubble Letters

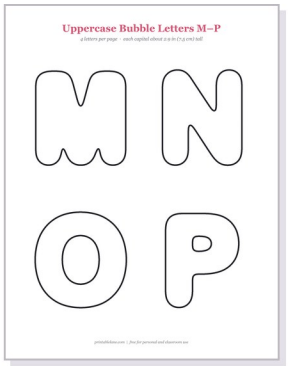

A–Z uppercase · a–z lowercase · numbers 0–9 · how-to page

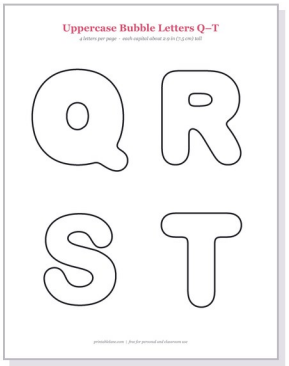

outline letters to color, cut out and spell · 13 pages

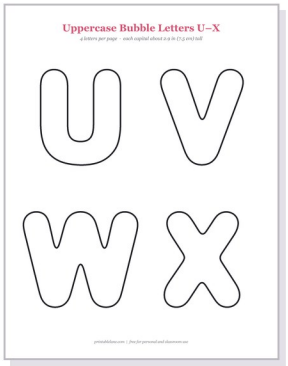

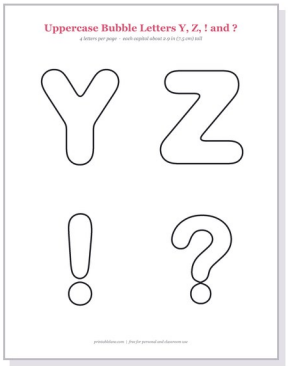

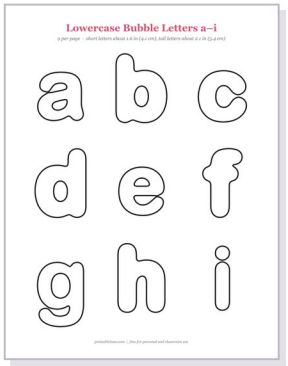

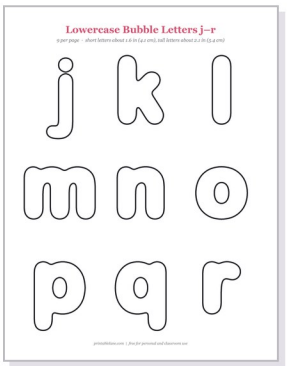

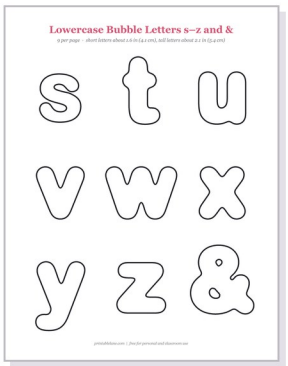

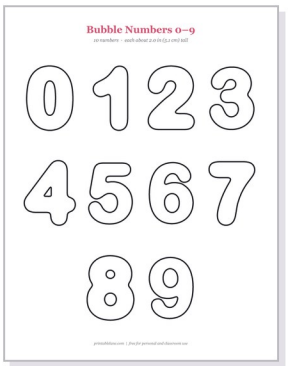

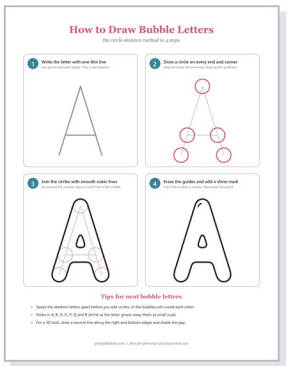

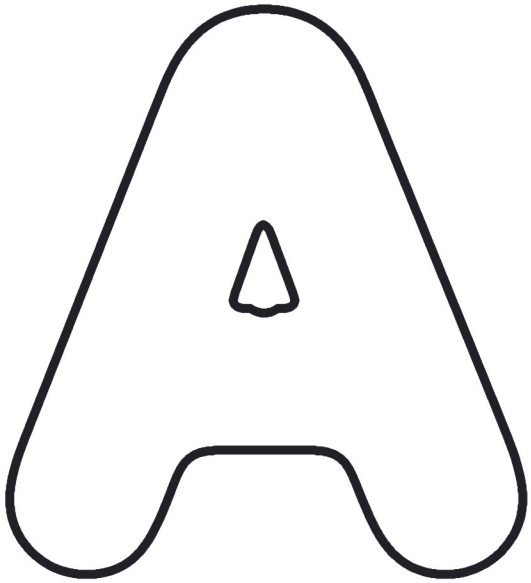

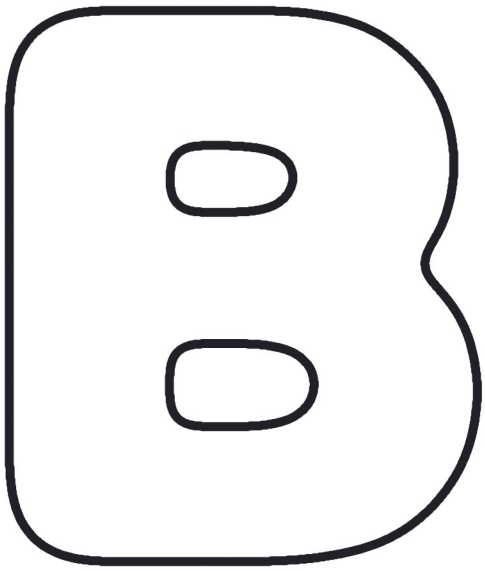

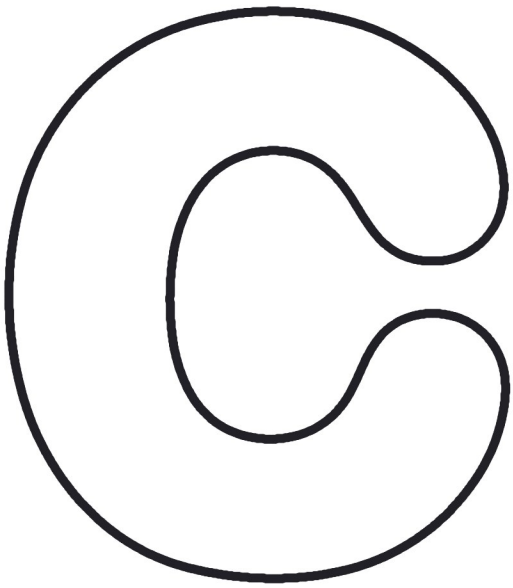

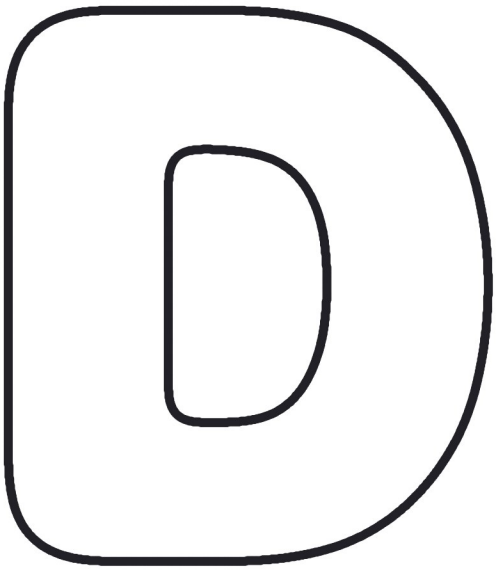

Uppercase Bubble Letters A–D

4 letters per page · each capital about 2.9 in (7.5 cm) tall

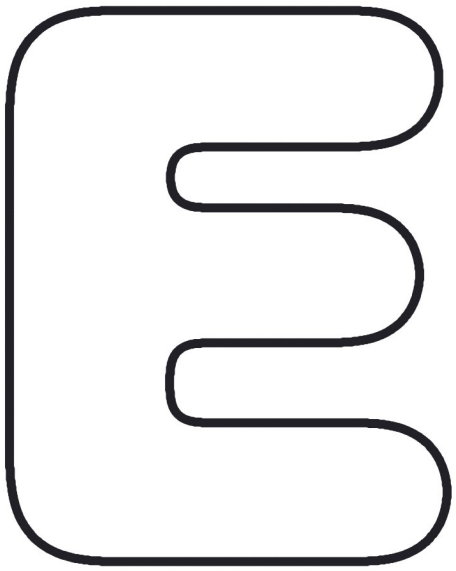

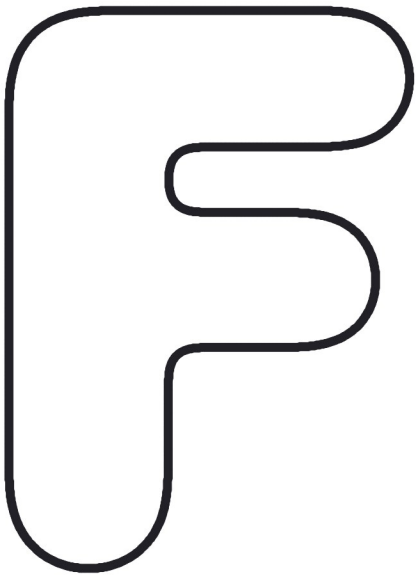

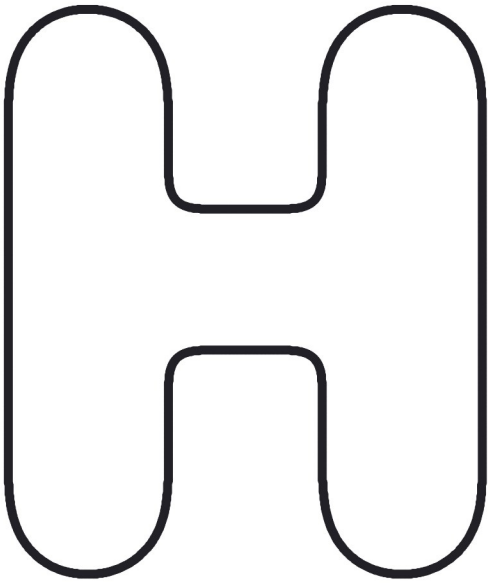

Uppercase Bubble Letters E–H

4 letters per page · each capital about 2.9 in (7.5 cm) tall

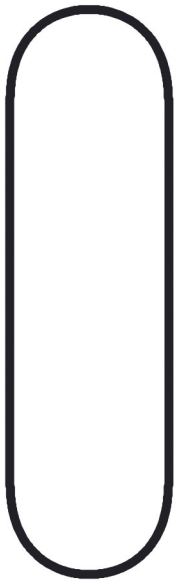

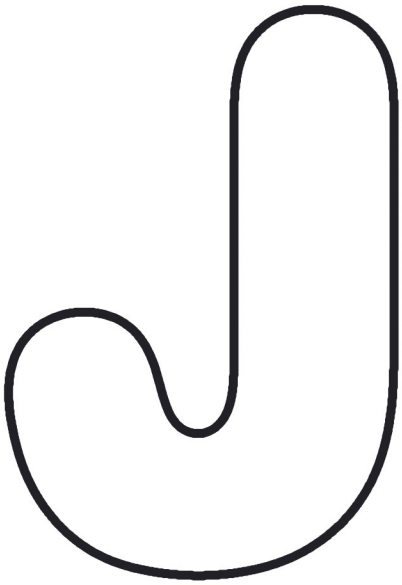

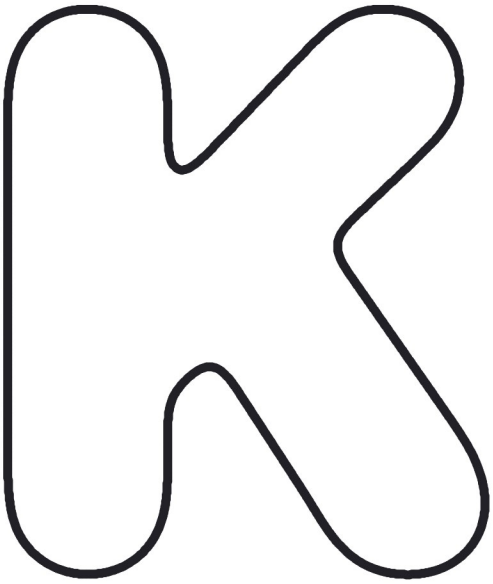

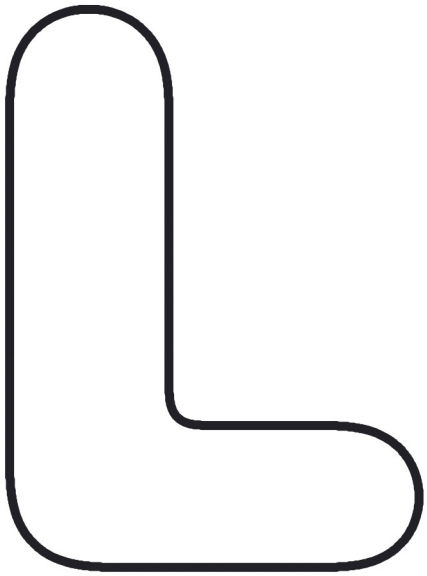

Uppercase Bubble Letters I–L

4 letters per page · each capital about 2.9 in (7.5 cm) tall

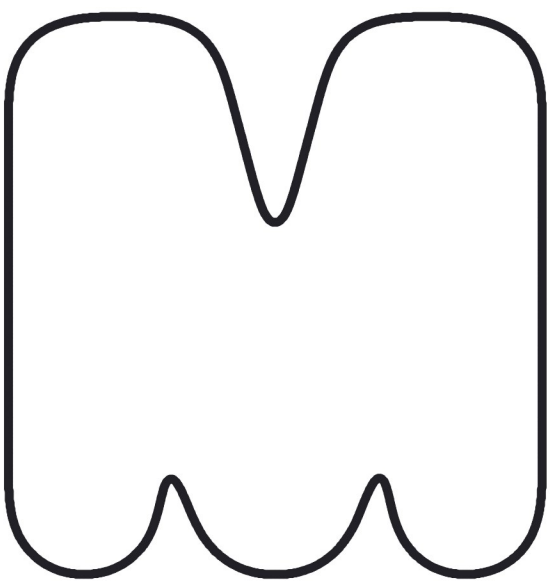

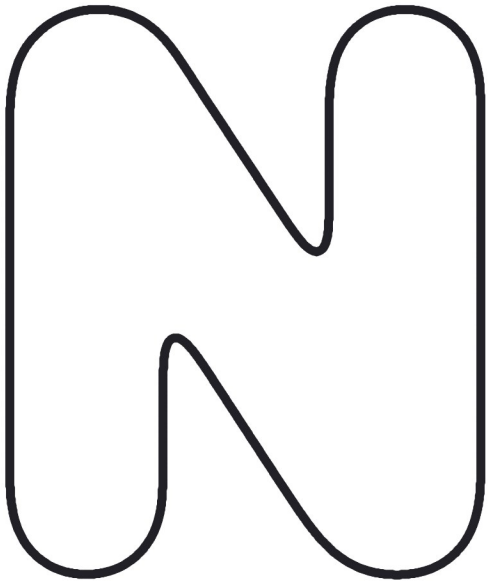

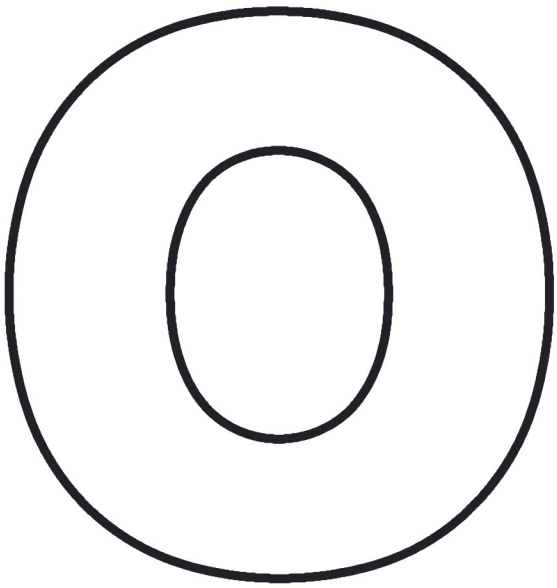

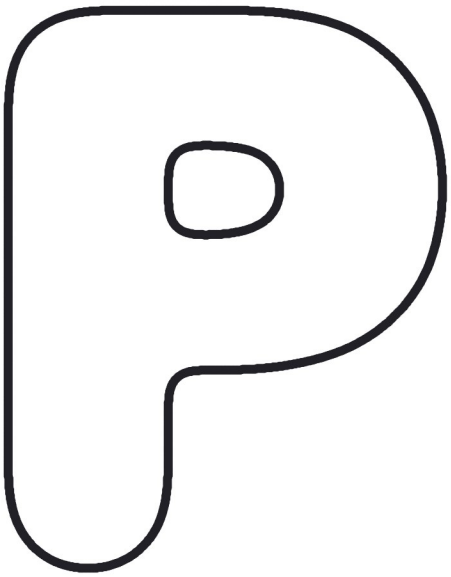

Uppercase Bubble Letters M–P

4 letters per page · each capital about 2.9 in (7.5 cm) tall

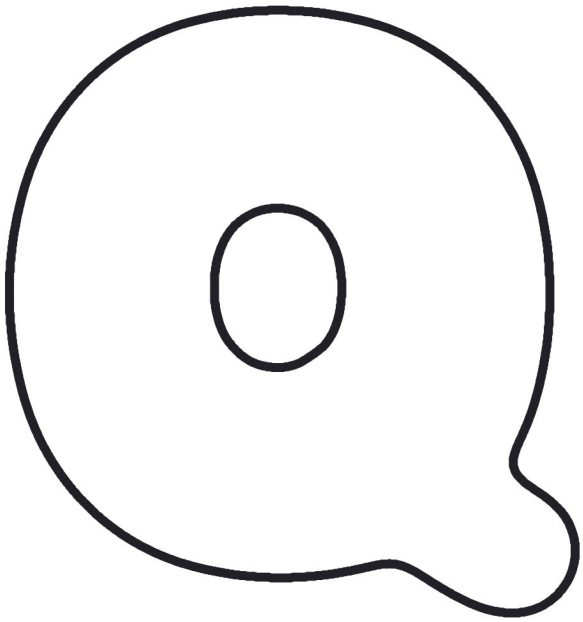

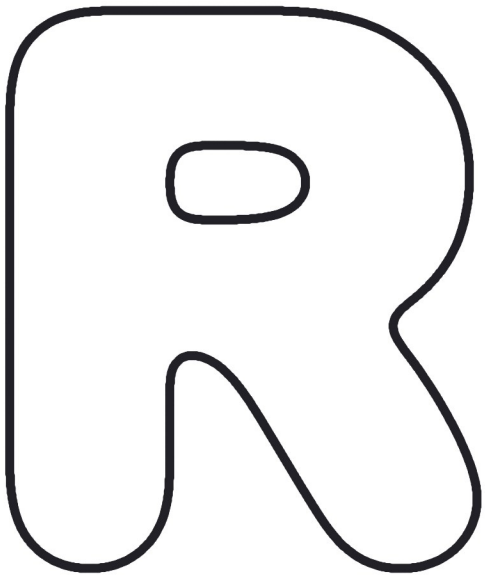

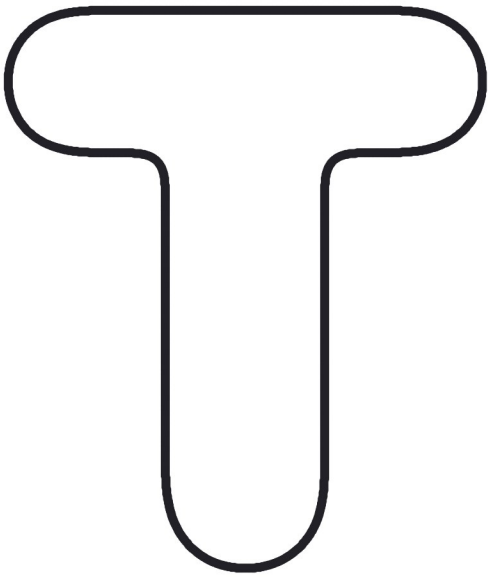

Uppercase Bubble Letters Q–T

4 letters per page · each capital about 2.9 in (7.5 cm) tall

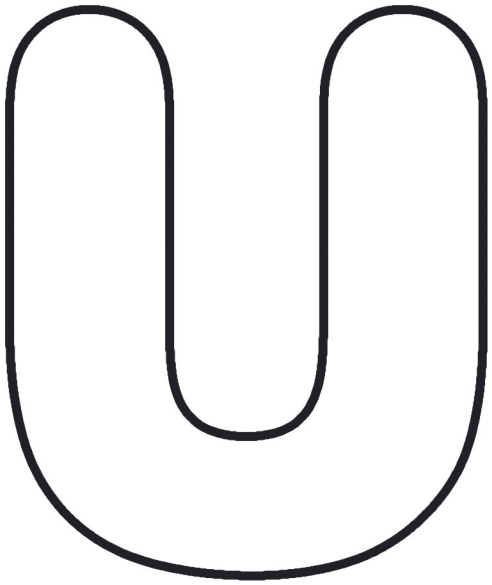

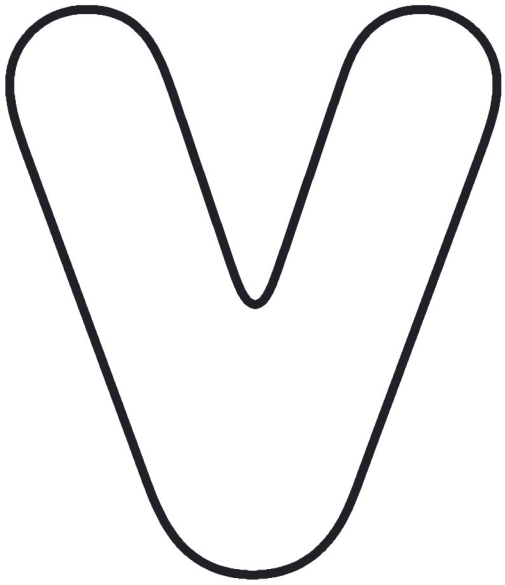

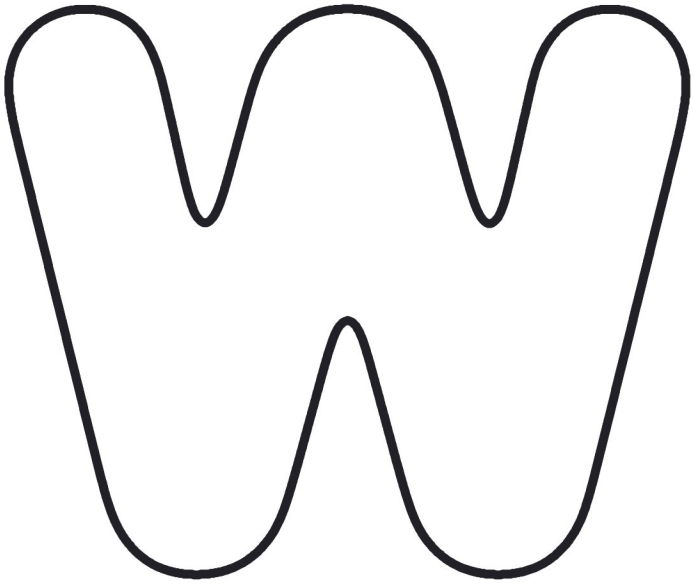

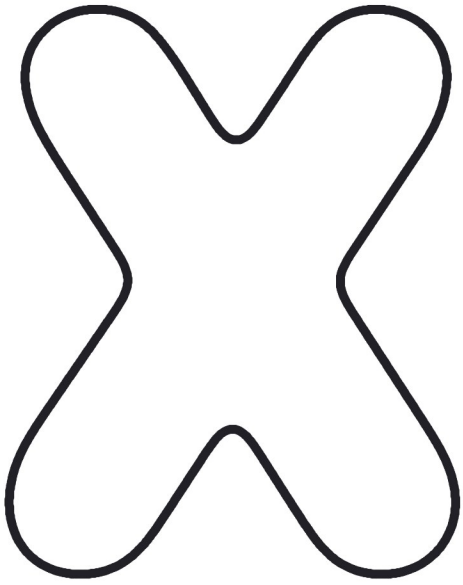

Uppercase Bubble Letters U–X

4 letters per page · each capital about 2.9 in (7.5 cm) tall

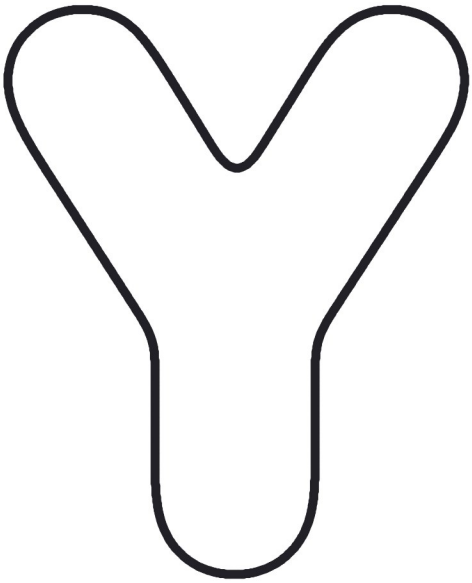

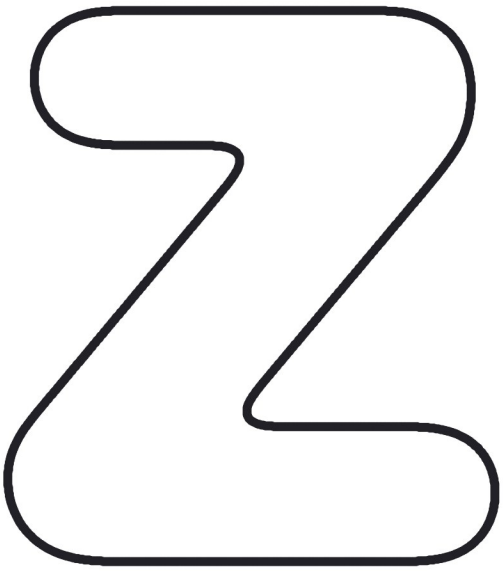

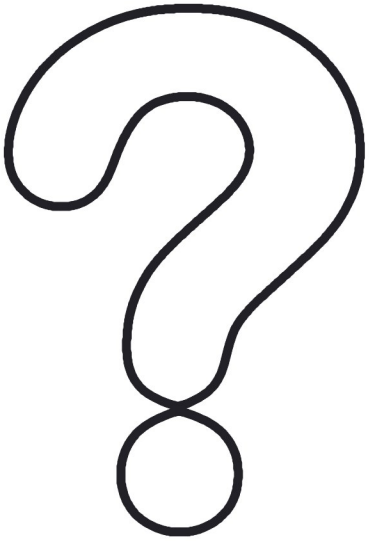

Uppercase Bubble Letters Y, Z, ! and ?

4 letters per page · each capital about 2.9 in (7.5 cm) tall

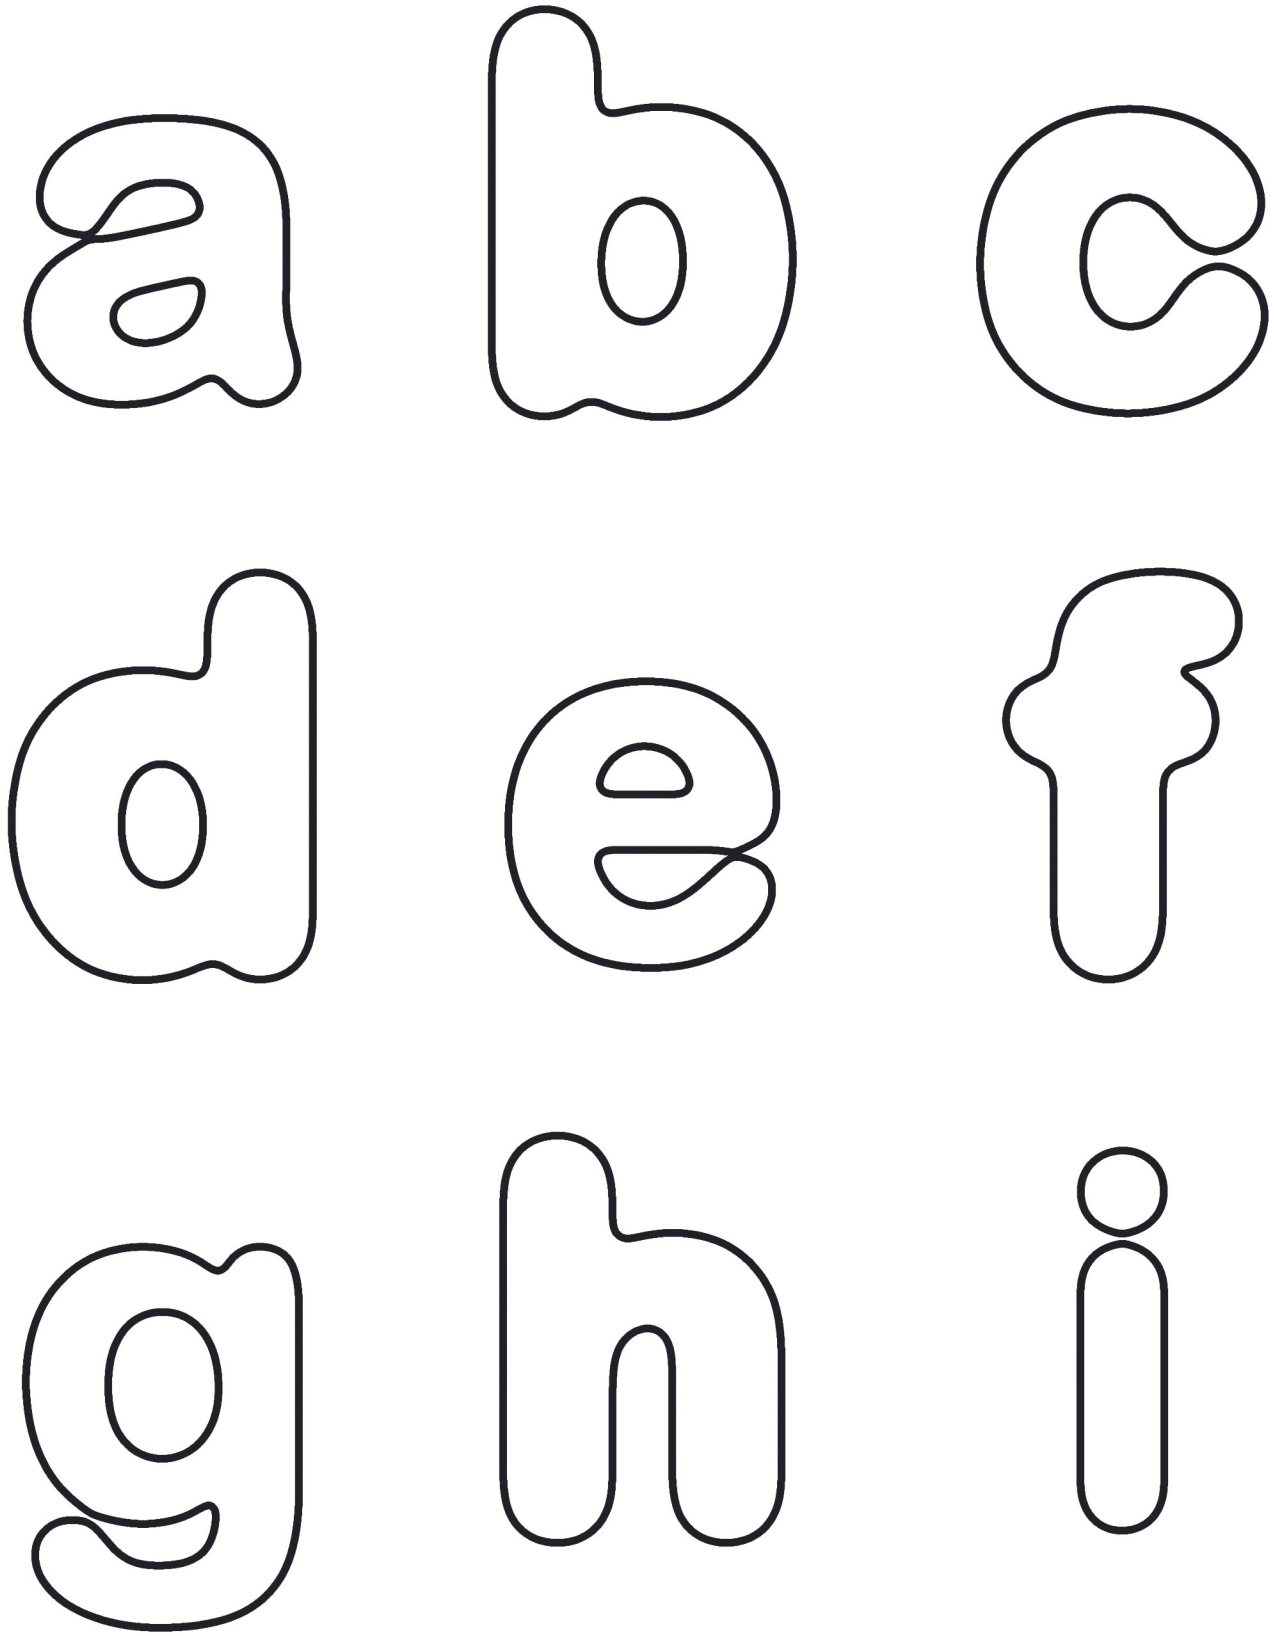

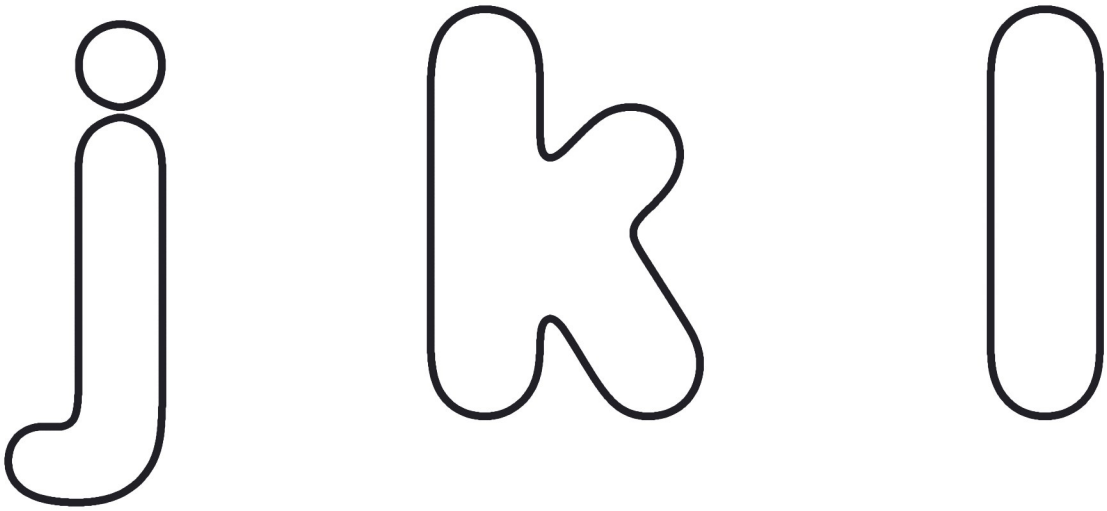

Lowercase Bubble Letters a–i

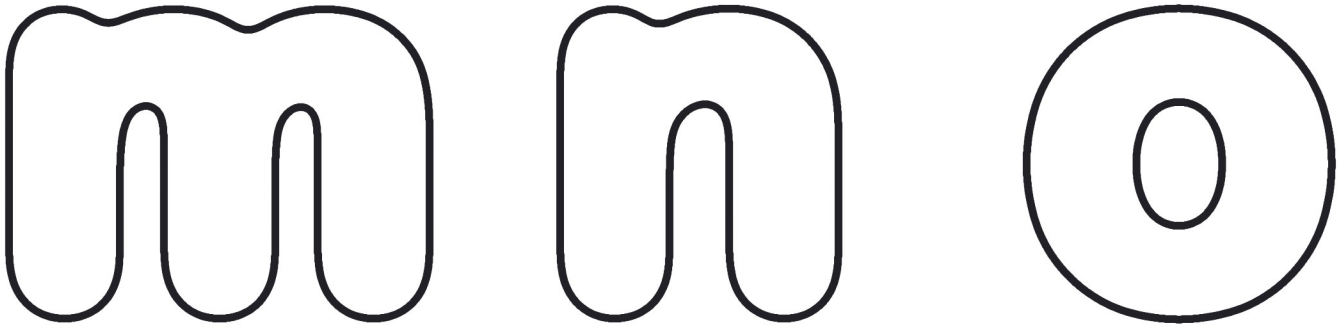

9 per page · short letters about 1.6 in (4.1 cm), tall letters about 2.1 in (5.4 cm)

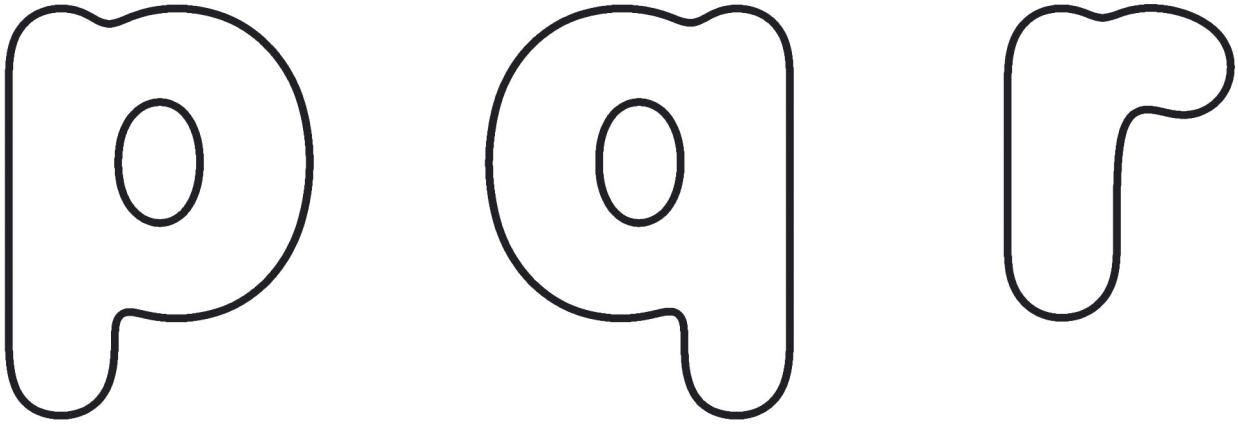

Lowercase Bubble Letters j–r

9 per page · short letters about 1.6 in (4.1 cm), tall letters about 2.1 in (5.4 cm)

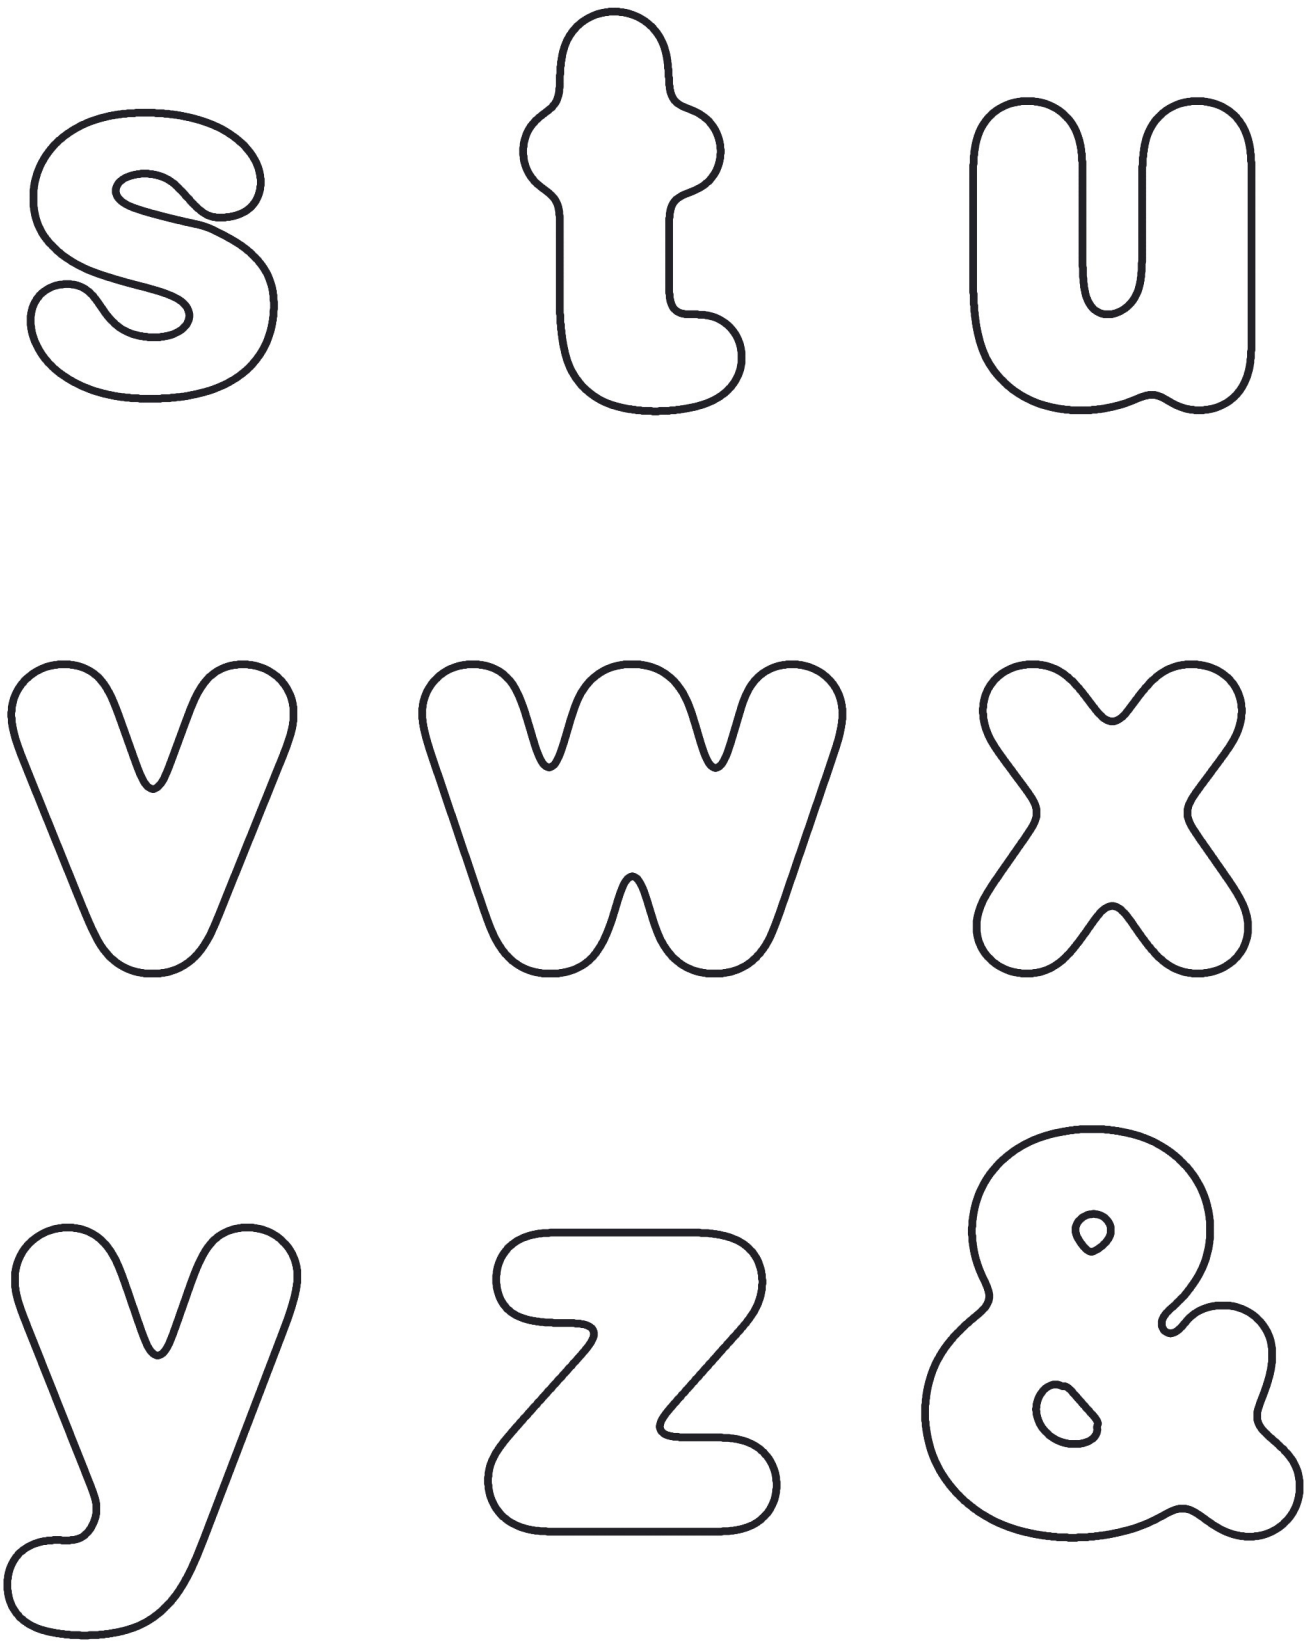

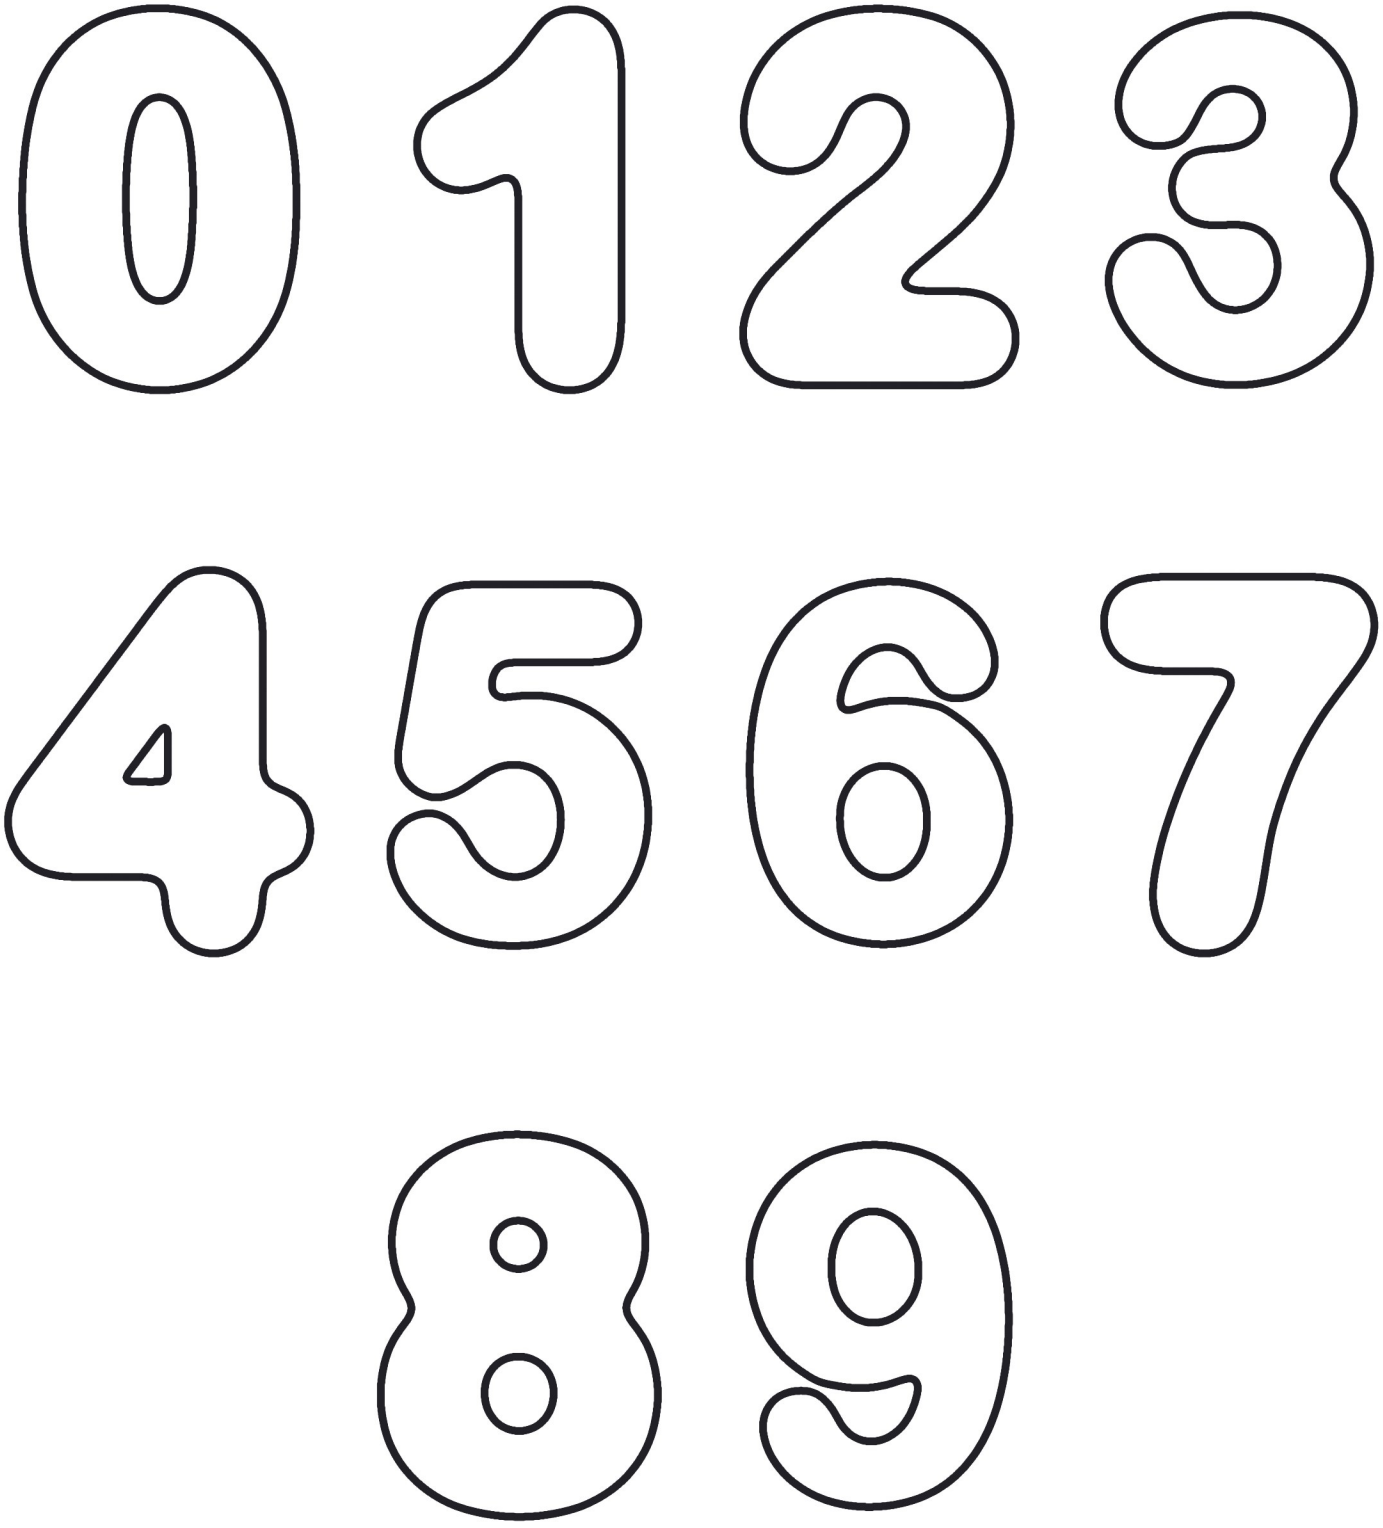

Lowercase Bubble Letters s–z and &

9 per page · short letters about 1.6 in (4.1 cm), tall letters about 2.1 in (5.4 cm)

Bubble Numbers 0–9

10 numbers · each about 2.0 in (5.1 cm) tall

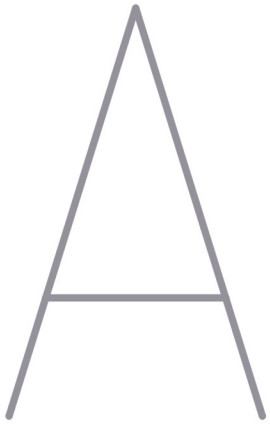

How to Draw Bubble Letters

the circle-skeleton method in 4 steps

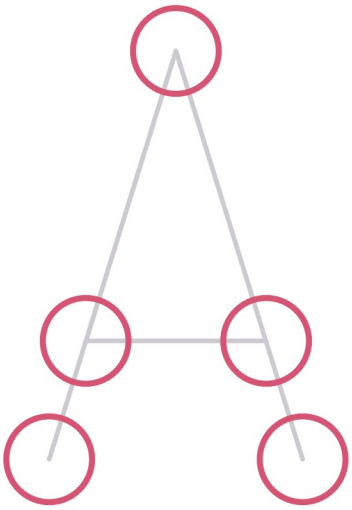

1 Write the letter with one thin line

Use pencil and press lightly. This is the skeleton.

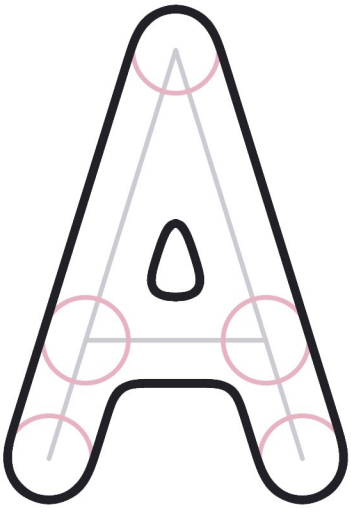

2 Draw a circle on every end and corner

Keep all circles the same size; they set the puffiness.

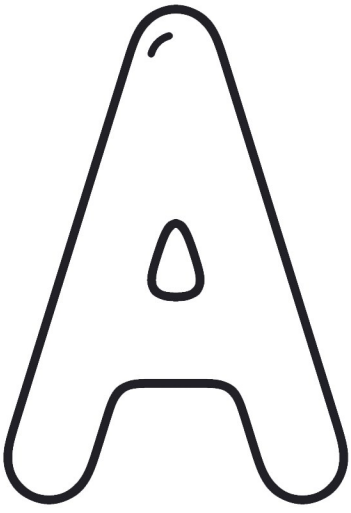

3 Join the circles with smooth outer lines

Go around the outside; leave a small hole in the middle.

4 Erase the guides and add a shine mark

Trace the outline in marker, then erase the pencil.

Tips for neat bubble letters

- Space the skeleton letters apart before you add circles, or the bubbles will crowd each other.
- Holes in A, B, D, O, P, Q and R shrink as the letter grows; keep them as small ovals.
- For a 3D look, draw a second line along the right and bottom edges and shade the gap.
